SUMMARY

Full Stack Developer with 1+ years of experience building scalable, responsive web applications using Angular, Spring Boot, and Wix Studio. Strong in REST API development, UI optimization, testing, and cross-functional collaboration. Skilled in delivering high-performance, user-centric features and deploying to production with CI/CD pipelines.

TECHNICAL SKILLS

Frontend: Angular, HTML, CSS, Bootstrap, Material UI

Backend: Spring Boot, REST APIs, Wix Studio (Velo)

Databases: PostgreSQL, Firebase, Wix Data Collections

Languages: TypeScript, JavaScript, Java, SQL

Authentication: Firebase Auth, JWT

CI/CD: GitHub Actions, Netlify CI, Render Auto Deploy

Testing: Postman, Manual Testing

Tools: GitHub, Bitbucket, Postman, Jira, Trello, Netlify, Render, Figma

EXPERIENCE

Tutorology   Aug 2024 – Present
Full Stack Developer
- Spearheaded the development of dashboards for admin, student, and teacher roles using Angular and Material UI.
- Created and launched RESTful APIs using Wix Studio Velo with secure role-based access control.
- Managed course and user data with Wix Data Collections ensuring real-time synchronization.
- Boosted dashboard performance by 25% using Angular lazy loading.
- Worked in Agile sprints using Jira; conducted functional testing using Postman.

Shri Ramdeobaba University   May 2024 – Aug 2024
Frontend Developer Intern
- Designed and delivered responsive UI modules for university site using Bootstrap and JavaScript.
- Improved page load speed by 30% through CSS optimization and code minification.

Ankhub Technologies and Services   Mar 2022 – Aug 2022
Angular Developer Intern (Remote)
- Developed 10+ reusable Angular components and integrated 6+ REST APIs for production applications.
- Collaborated with backend team and tracked features using Trello in 2-week sprint cycles.

PROJECTS

Employee Management System
Spring Boot + Angular
- Built full-stack employee CRUD system with login, session management, and admin access for 3 user roles.
- Released frontend with CI/CD on Render and verified API integration using Postman.

Budget Buddy
Angular + Wix Studio (Velo)
- Created budgeting tracker for 5+ expense categories with real-time updates using Wix Data Collections.

– Used Angular for frontend and Velo for backend logic with JWT Auth for secure access.

Cafe Mocha Mania
Angular
– Developed and launched Angular-based café app with 10+ menu items and contact form module.
– Implemented responsive UI to ensure optimal experience across devices.

PGAV Rental System
Angular
– Architected 4-module Angular rental platform with listings, booking, and user access control.
– Configured Angular routing and dashboards for 3 user roles and 4 view types.

EDUCATION

Shri Ramdeobaba College of Engineering and Management   Nagpur, India
MCA – Master of Computer Applications — CGPA: 9.52/10   *2022 – 2024*

City Premier College   Nagpur, India
BCA – Bachelor of Computer Applications — CGPA: 8.22/10   *2019 – 2022*

CERTIFICATIONS

Angular Developer – Ankhub Technologies

AWS Cloud Foundation

Workshop on Aptitude Development – RCOEM

TRANSPRENEUR Workshop 2023 – RCOEM

ACHIEVEMENTS

5-star badge in Java – HackerRank

2-star badge in SQL – HackerRank

Awarded merit-based scholarship for ranking in the top 3 of MCA students at RCOEM.
